What is the final approval step for TOPMed papers. I believe he sent a copy to Ugur as requested, but I'm not sure if there is more that needs to be done here.

Also, is the stroke group meeting today?

Tim

Subject: Amish and FHS study approvals

Dear Tim and Adrienne,

Could you please forward to me an email or document confirming Amish and FHS study approvals for our TOPMed flagship manuscript?

I know that these two approvals were verbally confirmed on one of our Thursday calls, but during the TOPMed DCC administrative review I was asked to upload a document (or email) with confirmation or a note saying that this is in progress.

Best regards,  
Daniel
