BK

Good morning, Daniel,

I do not have formal documentation with respect to BAGS except to say I can confirm this manuscript was reviewed by contributing BAGS investigators who approve of its submission.

Please advise if you need more.

Best,

Kathleen

Subject: URGENT STUDY REVIEW REQUESTED: TOPMed Flagship Genomics

Manuscript

Dear TOPMed PIs,

Earlier today you received a request to review the TOPMed flagship genomics manuscript. It is a combined version of the TOPMed design paper (lead by Cathy Laurie and Cashell Jaquish) and TOPMed sequencing paper (lead by Gonçalo), which were already reviewed separately by all co-authors. We ask you to send this combined version of the manuscript to your study publication committee for a review and send us documentation that the committee approves the paper. This documentation is a requirement for submitting the paper to the TOPMed publications committee and to *Nature* journal.

Best regards,

Daniel
