

**Subject:** RE: CHIP/AD paper from TOPMed for FHS approval Clonal hematopoiesis is associated with protection from Alzheimer's disease

**Date:** Monday, June 14, 2021 at 4:46:02 AM Pacific Daylight Time

**From:** Walsh, Ann (NIH/NHLBI) [E]

**To:** Sidd Jaiswal, kmutalik@bu.edu

Dear Sidd,

Thank you for the notification. No additional action (other than the TOPMed approval) is required.

Thank you for your consideration,  
Ann Walsh

**Subject:** CHIP/AD paper from TOPMed for FHS approval

Hi Ann and Karen,

Attached is a draft of our manuscript on the association of CHIP to Alzheimer's disease. We look forward to any comments. We are prepared to submit it as soon as all TOPMed approvals are in place.

Best wishes,

Sidd
