NL

Jim and Cathy:

I had written Cathy in December to tell her that HVH-VTE study-level approval is not needed if the PIs are involved. I asked about co-authorship since I think some PIs were listed as co-authors while others were not. I do not think I heard back.

Thanks.

Nick

Susan,

Excellent! Thanks for following up. We will wait to hear from Nick Re HVH.

Jim

Hi Jim,

I just had email correspondence with Daniel regarding CHS approval. The revised combined ms is approved.

Nick Smith will reply regarding HVH VTE.

Susan

Subject: AS SOON AS POSSIBLE - Approval of the TOPMed Flagship Paper

Dear Colleagues,

I am contacting you regarding cohort approval for submission of the TOPMed flagship paper to *Nature*. I am contacting you regarding the following cohorts:

CHS (VTE)
GeneSTAR
HVH (VTE)
JHS
Mayo_VTE
GALAI, SAGE (PGX_Asthma)
WHI

Please reply to me, Cathy, and Daniel Taliun and let us know whether the TOPMed flagship paper has been approved by your cohort for journal submission (or does not need approval). If not yet approved, please provide an estimate as to when approval is expected.

I apologize if you have already addressed this. We did not have complete clarity and are eager to respect the requirements of the contributing studies and their PIs.

As you know there is some urgency to this submission, for an upcoming special issue.

Thanks very much,
Jim
