Hi Adrienne,

Thank you for checking in. I apologize for the delay. The MESA Genetics P&P Committee reviewed and approved your TOPMed pen draft (G 734), Phenotype Harmonization of Retrospectively-collected Data in the NHLBI Trans-Omics for Precision Medicine (TOPMed) program. Please see the attached memo for details and let me know if you have any questions. Good luck with journal submission, and please let me know when it has been accepted and published.

Best,
Ellen

Hi Ellen,

I'm just checking in about this manuscript since I haven't heard back from the MESA
