

**MULTI-ETHNIC STUDY OF ATHEROSCLEROSIS  
MEMORANDUM**

Date: May 26, 2023  
To: Dr. Zhi Yu & Dr. Jerry Rotter  
From: MESA Genetics P&P Committee  
Re: MESA Genetics Manuscript G 987 (Human plasma proteomic profile of clonal hematopoiesis of indeterminate potential)

---

The MESA Genetics P&P Committee has reviewed and approved the penultimate draft of your manuscript referenced above, with comments. (See P&P comments below). **With this approval memo you can now submit your manuscript to a journal.**

**P&P COMMENTS:**

This is a clearly written, in-depth, and very interesting paper. I only have one minor comment. The MESA Ethnicity description should read "Chinese" rather than "Asian."

Well-written paper addressing an important topic. MESA descriptions and funding statements look correct. The authors could change the ancestry definition to "Asian (predominately of Chinese descent)" to be consistent with other MESA publications.

**Publication information requested by P&P Committee:**

**Please inform the MESA Genetics P&P Coordinator when the manuscript is accepted at a journal (date of acceptance and journal name). Please be sure to include the MESA Genetics ID (G 983) in your communication. Please also notify the Coordinator when the manuscript has been published (complete citation and a PDF of the manuscript).**

**Publication information requested by the NHLBI:**

The NHLBI no longer reviews MESA manuscripts (except those that include NHLBI staff members as authors), but to stay informed of findings from large studies and to prepare for press queries, the NHLBI Project Office would like authors to send them a courtesy copy of manuscript at or before the time of journal acceptance, particularly for "high-profile" papers. These generally include the following:

- Main results papers or key secondary results papers from clinical trials
- Papers with direct clinical implications, particularly if they impact NHLBI policies
- Papers on potentially sensitive topics
- Papers published in prestige high impact journals such as *Nature*, *Nature Genetics*, *Science*, *PLoS*, *NEJM*, *JAMA*, and *Lancet*.

Most importantly, please inform Cashell Jaquish ([jaquishc@nhlbi.nih.gov](mailto:jaquishc@nhlbi.nih.gov)), NHLBI Program Director, as soon as you are notified that your manuscript has been accepted for publication at one of the high-profile journals mentioned above.

**PubMed**

Please note that as of April 7, 2008, all peer-reviewed manuscripts arising from NIH funds are subject to the NIH Public Access Policy and must be submitted to PubMed Central (PMC) upon acceptance. When you submit your paper for consideration for publication, you must inform the journal of the need to comply with this policy. For details about what you need to do with submission, please go to <http://publicaccess.nih.gov/>.

If you have any questions, please contact the MESA Genetics P&P Coordinator ([genpp@uw.edu](mailto:genpp@uw.edu)).
