Subject: URGENT STUDY REVIEW REQUESTED: TOPMed Flagship Genomics Manuscript

** STOP. THINK. External Email **

Dear TOPMed PIs,
Earlier today you received a request to review the TOPMed flagship genomics manuscript. It is a combined version of the TOPMed design paper (lead by Cathy Laurie and Cashell Jaquish) and TOPMed sequencing paper (lead by Gonçalo), which were already reviewed separately by all co-authors. We ask you to send this combined version of the manuscript to your study publication committee for a review and send us documentation that the committee approves the paper. This documentation is a requirement for submitting the paper to the TOPMed publications committee

and to *Nature* journal.
Best regards,
Daniel
