Subject: [Topmed_hematology_hemostasis_wg] Working Group Approval for Telomere Paper

This email originated from outside Bloodworks' email system. Do NOT click links or open attachments unless you recognize the sender and know the content is safe.

Hello all:

The Telomere paper from Margaret Taub requires H&H working group approval. **Note that if you are a named author you will have received a separate email with active links to comment and approve the paper.** For all others included in the working group banner for H&H, please email Margaret (mtaub@jhsph.edu) along with Alex, Andrew, and Rasika (H&H Co-conveners) any feedback and/or edits you may have.

You can find the materials at the following address: https://drive.google.com/drive/folders/1NT-0CHIUKyH0K_AdbmH7MnIXx1wRaVvZ?usp=sharing

Margaret would like to submit this Letter to Nature within the month as she has a successful pre-submission query with a submission link open, so **we would appreciate your comments within 2 weeks.**

Thanks for your timely consideration on this,
Rasika
